

IS YOUR HORSE OR PONY GETTING THE RIGHT FIBRE?

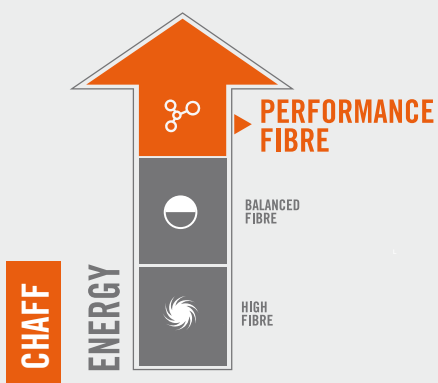

We know every horse has their own energy and nutritional needs to maximise health and performance. That's why we've developed a range of fibre products to suit your individual requirements. Whether it's fresh forage or chaff, each one of our products come with different feeding benefits.

Use our simple feeding guide to choose the **BEST** fibre solution for your horse.

TYPICAL ANALYSIS	DRY MATTER BASIS
Dry Matter	43%
Digestible Energy	10.7 MJ/kg
Crude Protein	21%
Fibre(NDF)	37%
Digestibility	62%

Fresh Forage - A natural, palatable, moist Lucerne Fibre Forage captures the natural goodness of Lucerne in easy to feed slices with no additives or molasses.

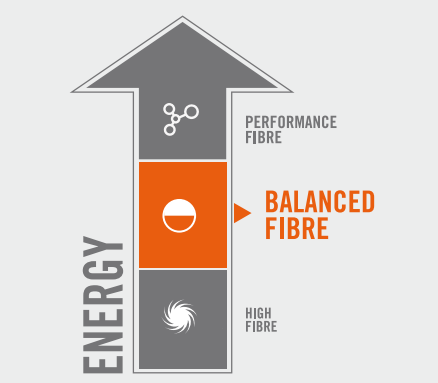

TYPICAL NUTRIENT ANALYSIS	DRY MATTER BASIS
